ARE MY CHILD'S RECORDS PROTECTED?

I want to ensure my child's immunization records are secure, up-to-date, and easily accessible—especially for child-care centers, schools, and emergencies. I have researched the Florida SHOTS program and am interested in getting my child's records into the registry. Are you currently using Florida SHOTS?

FLORIDA SHOTS BENEFITS

Florida SHOTS (State Health Online Tracking System) is a free, statewide, centralized online immunization registry that helps parents like me, authorized health-care providers, schools and day care centers keep track of immunization records. The registry was designed to help doctor's offices by providing you with lots of benefits including:

- Easy-to-print blue forms (DH Form 680)
- 24/7 access to immunization information
- Up-to-date immunization tracking software that never needs to be downloaded or upgraded on your computer
- System-certified electronic 680s accessible directly to authorized schools, child-care centers, and medical providers
- Reliable, consolidated immunization histories for new or continuing patients
- Previously reported contraindications
- Immunization reminders and recalls
